308 San Antonio St

BISHOP NELSON APPROVES TUBERCULOSIS SUNDAY.

All Churches Are Called Upon to Preach Gospel of Health On April 24 Throughout the Country.

New York, N. Y., March 17 .- Approval of the movement for a national tuberculosis Sunday on April 24, recently inaugurated by the National Association for the Study and Prevention of Tuberculosis, is given in a statement by Rt. Rev. Richard H. Nelson, bishop coadjutor of Albany, N. Y., for the Pro-

testant Episcopal church, issued today. Bishop Nelson says: "I think well of the proposal that all the churches should unite on April 24 in presenting the truth concerning tuberculosis and stimulating public interest in the campaign for its prevention and cure.

The campaign has entered upon its second stage. Having labored with some success to point out the danger. we are now concerned with the cure, and this depends upon improvement in condition of personal and social life. Whatever the churches may be able to do along this line, will be a double contribution to physical and spiritual betterment, and I should think that all would wish to have a share in such an

Reports from all parts of the United States indicate that the Sunday set the national debt, would probably show apart will be generally observed, by the preaching of sermons on tubercuto s billion and a half dollars for the losis and by the distribution of spe- last 20 years, and a grand total of over cial literature.

The National Association for the Study and Prevention of Tuberculosis declares that the campaign against tuberculosis is a warfare against ignorsnce, and that as soon as the people United States know that tuberculosis can be prevented and cured, they will demand that the needless waste of 200,000 lives annually be stopped.

## JAMES J. HILL SAYS WE ARE A NATION OF EXTRAVAGANT PEOPLE

(Continued from Page One.)

ing of a patrimony not our own to ob- | the price level. Foodstuffs cost from tain material for present extravagances, 10 to 70 percent more than 10 years the diversion of wealth from productive to unproductive uses-all these have gone further than most people realize.

Tradition Against Debt. "The people of the United States in-herited from its founders a wholesome tradition against debt, which is only now disappearing from the conduct of tional affairs."

Mr. Hill said the national debt now tends to rise, concealed under the po-lite fiction of certificates of indebtedness to cover treasury deficits, "If," he ble. continued, "the advocates of large bond issues for all manner of internal im-provements should carry their point, if that resource is not definitely restricted lation. to the emergency of war, we will be in the condition of Europe, where the motto of every chancellory now seems to be, 'After us the deluge.'

Increase of Debts,

"In our cities, modern extravagance finds its most untramelled civil di-visions, increased \$13,921,443, or 1.25 percent, between 1880 and 1890. Between 1896 and 1902 it increased \$727,778,393. or 64 percent. Nearly three-quarters of a billion in 12 years, an average of \$60,000,000 a year in the amount borrowed by the people, ought to make any country step and think. Most of the actual material development is privately financed and carries its own bonded indebtedness which the public finances cannot take into account. The figures an increase of a billion and a quarter to z billion and a half dollars for the wo and a quarter billion dollars; about double what it was in 1890.

#### National Extravagance.

"Debt figures, however, do not begin to tell the story of our national extravagance. Only a small part of our expenditure is represented by debt tables. The rest is raised by increased taxation, I know of nothing bearing more directly or forcibly upon the subject of national waste and the conservation of public expense ledgers.

"Although the great business expan-tion of this country began right after he civil war, the expenses for 1890 were but \$4,000,000 greater than those of 20 years before. Since 1890, these expenditures have grown by \$180,000,000 each nine years on the average, or \$20,000,000 a year until now they are 121.4 percent a year until now they are 121.3 percent more than they were 18 years ago. Expressed in terms of per capita optgo, these charges, which are only part of the cost of maintaining the federal government, rose from \$4.75 in 1890 to \$6.39 in 1990 and to \$7.56 in 1908.

A Billion Dollar Country.

"It is always asserted, when the truth is told and a demand for economy is made, that the development of the country and its increase of wealth have been so great as both to require and justify enlarged outlay. The answer to the charge of a billion dollar session of ongress is that this has become a bilion dollar country. The apology is neither relevant nor true. It is not necessary that expense should increase in the same ratio as growth. But the growth of expenditure has so far outrun the growth of expenditure has so far outruch the growth of the country that the ac-tual figures are almost incredible. The following little table exhibiting the whole situation might be printed at the top of every letterhead used by any public office anywhere in the United States:

Increases. Wealth, 1870 to 1890, 116 percent, 1890

to 1904, 65 percent.
Foreign trade, 1870 to 1890, 99 persent, 1890 to 1908, 85.4 percent.
Value manufactured products, 1870 to 1890, 121 percent, 1890 to 1905, 58 per-

Net ordinary expenses United States government, 1870 to 1890, 1.4 percent, 1890 to 1908, 121.4 percent. Expenditures 30 states, 1870 to 1890-1890 to 1909, 201.6 percent.

Pletny of Public Ills. "The phenomenal increase of public expenditure has already produced a plentiful crop of public, ills. It is one of the causes of the increase in prices now disturbing the people. This increase follows in a suggestive way the inflation of national and local budgets. The average cost of the supplies that must be bought for practically every household has increased about 50 percent be-tween 1896 and 1900. During the past year there has been a marked lifting of

#### To Eradicate Skin Rashes

Skin rashes or redness that appear on your face, hands, arms, legs, back on your face, hands, arms, legs, back or body should be treated at once with Littell's Liquid Sulphur Compound. Not only are they bad themselves, but Eczema often starts with these symptoms. Unless you've had Eczema you can't conceive of the horrible itching, burning, maddening pain. Whether you're just at the beginning or far along in your suffering Littell's Liquid Sulphur Compound will stop all itching instantly and eradicate the disease by penetrating the pores and killing all germs. Best treatment for skin diseases—Eczema, rashes, pimples, sores, eases—Eczema, rashes, pimples, sores, hives, prickly heat, etc. Sample bottle sent postpaid for 10c. Rhuma-Suiphur Co., St. Louis, Mo.

to remain among them always. St. Pat-rick insisted, however, that his mission said: "In my dreams the voice of the Irish, say continually, 'We pray thee holy youth to come and henceforth walk

"Something is due to enormous currency inflation. The total per capita in the United States in 1896 was \$21.41 and in 1909 it was \$35.01.

Exorbitant Charges. "Combinations which are actually in restraint of trade, which have monopo lized their field and are either controled by a common secret management or a secret agreement to maintain exorbitant charges are partly responsi-

to the decline of agricultural products as compared with the increase of popu-

Perhaps the greatest factor of all in the price problem is the wage rate. This has been rising steadily in this country. At cost of production is chiefly labor cost, the price of the finished article must go up if the price of labor is raised. This is just as true of the farm as National Waste.

"The effect of national waste of cap ital is felt immediately in the added weight of taxation. The taxes collected anually from the railroads of the country have increased more than 200 percent since 1889.

Franchise taxes are referred to with neither approval nor disapproval.

The modern theory that you can safely tax the wealthy is just as obnoxious as the mediaeval theory that you can safely oppress or kill the

"The saving feature of our situation tions, remedy is not obscure. The ideal of intelligent economy must be restored. Expenditure must be cut down all along the line.

"Credit everywhere should be conserved by a sharp scrutiny of new bond issues. Stop grafting, the offspring of public extravagance and the parent of civic decay. Individual and public econ-omy; a just distinction between a high standard of comfort on one side and vulgas ostentation or criminal waste on the other; a check on income wasting. debt creation and credit inflation—these are the essentials of the new and better conservation."

All lubricating and refined oils guaranteed to give perfect satisfaction for purposes recommended. Gulf Refining

Junrez Improvements.

"Juarez? Well, Juarez comes next for improvements. This is the centennial year, and the state of Chihushua is receiving the greater part of attention. Now, we are having it at the city of Chihuahua. Governor Creel now is drawing up plans for the improve-ment of Juarez, along the lines suggested some time ago. Yes, it will be

started in Juarez very soon. "At Chihuahua we are having many fine ethings. About \$600,000 is being spent in all. Streets are being paved, and the capacity of the water system tripled. The new federal palace will cost about \$450,000, and the old Casino clubhouse has been torn down to make room for a \$100,000 structure. "Also we are installing a garbage

crematory. That will cost about \$18.-000. Yes, it is a fine thing. El Paso ought to have one."

Mr. Asunsulo is visiting El Paso on month's vacation from his official duties at Chihuahua. He may travel farther into the interior of the United

States, his course now being undecided. Educated at American School. Educated at an American school, the visitor from the interior speaks excelent English, and is a firm believer in the American method of doing many things. His children are being educated at American schools in emulation of the

father. In all. Mr. Asunsulo is a courteous refined man of affairs, typical of the Mexican of today, with facts and figures regarding his city at tongue's tip.

#### TO RAISE FUNDS FOR THE Y. M. C. A.

Finance Committee to Secure Subscriptions to Meet Obligations.

In order to meet the expenditures of the Y. M. C. A., for 1910, the finance committee will, within a few days, begin a canvass of the business interests of El Paso to secure the necessary funds.

The income from the membership and other receipts meets about 75 per-cent of the annual obligations. An effort is to be made to secure the remaining 25 percent through subscrip-

committee, which is composed of J. G. McNary, T. J. Jones, C. M. Newman, E. M. Bray, J. J. Ormsbee, H. B. Sevens, Dr. J. A. Rawlings, A. L. Sharpe, J. L. Campbell, I. A. Shedd, Col. Lewis and Dr. H. E. Stevenson.

PENNSYLVANIA ROAD OPENS SCHOOL FOR APPRENTICES. Altoona, Pa., March 16 .- Unique

among railroad schools is that which has just been established at Altoona. Pa., by the Pennsylvania Railroad company, the management of which has arranged with the Pennsylvania State college to send professors to Altoona two days a week to give instruction to apprentices employed in the railroad shops. Special quarters have been constructed for the school rooms.

The plan with which the Pennsylvania Railroad company is experimenting is to educate apprentices along the lines of work which they are following. with a view that this instruction will result in their becoming better and more efficient workmen. ship of the first class will be composed of apprentices of the fourth year who have shown ability in their work and a disposition to better their education. It will be optional with the young men whether or not they will take the course but after entering the school attendance will be compulsory. The first class will be limited to 30 apprentices.
